7 March 1978

MEMORANDUM FOR: Vice Admiral Robert R. Monroe, U.S. Navy
Director, Defense Nuclear Agency

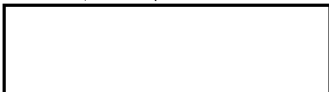

SUBJECT: Strategic Force Balance Analysis

Several times I've mentioned to you the work we were doing on a different approach to strategic force balance analysis. Thought you'd like to see what the product actually is. Hence, I'm attaching Volume I of the Estimate itself and a very encapsulated version of it which I used in briefing the Congress and others. Would appreciate any comments you have on how we can do this better the next time around.
